

# RIBES

REGIONAL INCLUSIVE BIOBASED  
ENTREPRENEURSHIP SOLUTIONS

RIBES aims to drive the adoption of bio-based innovations across Europe by developing new governance and business models that combine the benefits of circular bioeconomy, social innovation, and rural development in 10 European Regions.

## RIBES WILL COLLABORATE, INNOVATE AND ACCELERATE TO:

- 1 Establish Multi-Actor Transformative Forums (MTFs) to foster collaboration among universities, businesses, governments, and civil society.
- 2 Understand regional and local needs, conditions, and existing bio-based products and their value chains.
- 3 Develop the RIBES Toolkit to support informed decision-making and foster bio-based community development.
- 4 Provide training, capacity building, and business support to accelerate small-scale circular and bio-based enterprises.
