

BIOECONOMY AND CIRCULAR ECONOMY FAIR NETWORK

A FAIR DIGITAL PLATFORM
TO REDUCE GREENHOUSE GAS EMISSIONS
THROUGH CIRCULAR AND BIOECONOMY MODELS

The European region stands at a critical crossroads, rich in natural and cultural resources yet increasingly challenged by environmental degradation, overexploitation, and climate instability.

Embracing the circular economy offers a transformative opportunity to rethink how we use, manage, and regenerate these resources—moving from linear consumption models toward systems that prioritize reuse, resilience, and renewal.

The challenge is to understand how collaboration, innovation and traditional knowledge can together shape a regenerative future for people, countries, communities

THE CHALLENGE OF RESOURCES FOR SUSTAINABLE DEVELOPMENT

EU'S UNDERSTANDING OF THE BIOECONOMY

All sectors and associated services and investments that **produce, use, process, distribute or consume** biological resources (animals, plants, micro-organisms, including organic waste), including services.

BIOECONOMY IS PROVIDING SOLUTIONS

- Policy framework for **people, prosperity, planet.**
- The EU Bioeconomy Strategy takes a **holistic approach** focusing on all three dimensions of sustainability.
- **Cross-sectoral** policy framework
- Addresses **five different objectives**
- Strategic view on **trade-offs** (e.g. scarce biomass), co-benefits (e.g. for biodiversity)

BIOFAIRNET OBJECTIVES

IDENTIFIED HOTSPOTS

MINING SECTOR

IBERIAN PYRITE BELT (SPAIN)

- Andalusia (ES61)
- Huelva (ES615)
- Sevilla (ES618)

RHENISH LIGNITE DISTRICT (GERMANY)

- Köln (DEA2)
- Rhein-Erft-Kreis
- Düren
- Rhein-Kreis Neuss

AGRICULTURE SECTOR

PO VALLEY (ITALY)

- Pavia, Lodi (Feedstock)
- Cremona, Mantova (Dairy)
- Parma, Reggio Emilia (Pig)

ANDALUCIA (SPAIN)

- Almería (Greenhouse)
- Jaén, Córdoba, Sevilla (Monoculture)
